**Re: Telephone Number Portability, *et al.*, WC Docket Nos. 07-149 and 09-109; CC
Docket No. 95-116**

Dear Ms. Dortch:

Frontier writes to express its support for completing the Local Number Portability (LNP) transition without delay. We fully agree with Chairman Pai that “[g]iven the importance of the LNPA, the transition must be accomplished in a seamless and timely manner, without disruption to public safety, industry, the law enforcement community, or the public.”¹ To that end, Frontier and the industry have been working on a well-thought and reliable contingency rollback plan—one which we support. This plan has been developed by the Transition Oversight Manager (TOM) and ultimately accepted by the NAPM, LLC.

Simply put, the plans are in place, and Frontier stands ready to proceed with the current rollback procedures as the transitions begin on April 8, 2018. Frontier sees no reason to further delay the transition. We urge the Commission to ensure that all parties are working to ensure the transition occurs as planned.

Please contact me with any questions.

Sincerely,

/s/

Mike Saperstein
